* Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Applicants discussed claimed subject matters of Claims 1 and 30, and discussed some cited portions that have been mapped to the claimed subject matters. Applicants mentioned that the Examiner addressed the Applicants' arguments with respect to claim 1 but do not do the same to other independent claims.

Examiners addressed that the reply to the Applicants' argument filed in Final action on 10/10/2007 addressed to the claimed subject matters in all independent claims; particularly, addressed to Figure A (Applicants) and Figure B (Barrio). The argument for the differences supported by the figure A (as argued and made Final action) does not present the patentability under 1.111(c) and patentable difference over the cited portions of Barrio' reference (or of the reference as a whole).
